- Hong Kiat is a very responsible TA. I really like and appreciate the weekly 10-12 pages file that he created, which is about the covered course content along with many examples of problems. Hong Kiat is extremely accessible outside of the class through the usage of emails and the Telegram platform. He encourages the students to think and does not give away answers like other TAs have done in the past, and he has created an excellent learning environment for students to improve significantly. Overall, 10/10 and the best TA I had.
  - Hong Kiat is one of the best math TA's I've had at UCLA - he always comes very prepared with his discussion worksheets and explanations. He's also very accessible outside of the 2-hour discussion period and is very responsive through Telegram. He's very patient and explains the logic behind proofs very well. I appreciate him very much!
  - Hong is such an incredible TA - well organized, thinks through everything, finds ways to challenge you, helps you understand the material. 10/10
  - Knowledgeable: all questions were answered quickly and clearly during OHs.  
Organized: well-summarized discussion session notes. well-prepared example problems relevant to materials.  
Respectful: questions are welcomed.
  - Thank you so much for always helping us and the supplements materials! It has been a great learning experience. Great appreciation to you!

- best TA ever. I really love the discussion pdfs that gets me track on learning. Thank you so much!!! and very quick for feedback. best ever
