n=8
 av.=8.63
 md=9
 dev.=0.74

2. Comments:

- 2.1) Please use the space provided for any comments you wish to make which are pertinent to the educational process. These may include all aspects of the course: teaching, examinations, grading, textbook, etc.
- Easily the best TA I have ever had, both for this class and Math 134. The discussion supplements are even more helpful than the textbook, the level of teaching is amazing, and I felt I could always come to office hours or discussion and both learn a lot, and clear up any questions I had. If/when I become a professor as I hope to, this is what I strive to be. Thanks so much!
 - HK, you are one of my few favorite TA for most of my Math classes yet. Thank you for structuring your discussion so that It's super useful. The discussion supplement was life savers. I really enjoy how you went over class material during discussion, it makes understanding the topics so much easier. Definitely keep that up. Honestly wouldn't have passed the class if it wasn't for you. Thank you!
 - Love your class, very helpful and clear!
 - The TA is very helpful and is always available for questions and answers with good detail and depth behind his answers. He has given us several resources to do well in the course.
 - greatest ta ever
 - this TA was extremely helpful and provided extra help outside of discussion hours and class
