- Discussion supplements were very helpful. Maybe ask if students have specific problems they want to have gone over in the discussions.
- Good TA
- HK was very thorough in his explanation of course material. His discussion sections helped to clear up any small confusion from lecture. Additionally his discussion supplements were a good way to condense the weeks material into the important bullet points, this was especially useful when studying for the midterm/final exam.
- I loved the discussion supplements he made, I think they significantly contributed to my success in the course. The practice problems were amazing and right in line with the class.
- I thought the TA did an amazing job. The extra office hours were appreciated. Discussions were always super engaging, and he went through each step of each problem, which helped me.
- TA Tan, he is very nice and care students. His discussion and office hours are really helpful. He helped me a lot in this course.
- Very enthusiastic even though math students tend to be quieter and lower energy he still tried to engage the class which is extremely appreciated. Occasionally was a bit hard to follow with explanations but I think that has more to do with the nature of finance just being harder for people to wrap their heads around in the beginning. Overall excellent TA, I've rarely had TAs that put in this much effort into

helping. The discussion supplements were also top tier.

- Very organized thank you

- your discussion section and discussion supplements are really helpful for my study of the course!
